Alex Morgan - Senior Backend Engineer

Email: alex.morgan@example.com | Phone: (555) 019-2834

Professional Summary

Experienced backend engineer specializing in distributed systems, FastAPI, and PostgreSQL.

Technical Skills

Python, FastAPI, SQLAlchemy, PostgreSQL, Redis, Docker, Kubernetes, AWS

Work Experience

Senior Software Engineer at CloudCorp (2021 - Present)

Architected high-throughput REST APIs handling 50k requests per second using FastAPI and asyncpg. Reduced database p99 query latency by 45% through composite index tuning and connection pooling.

Education

Bachelor of Science in Computer Science, State University, 2017 - 2021

Key Projects

Distributed Task Scheduler: Built an asynchronous distributed job queue with Redis Streams and leader election using Raft algorithm.
